PROFESSIONAL SUMMARY

Motivated Junior Full-Stack Developer with hands-on experience building modern, responsive web applications and scalable RESTful APIs. Proficient in frontend frameworks like React.js and Next.js alongside robust backend engines including Node.js/Express.js and Django REST Framework. Skilled in relational and non-relational database management (PostgreSQL, MongoDB), user authentication, responsive UI architecture with Tailwind CSS, and cloud deployments on Vercel and Render. Passionate about writing clean, maintainable code and solving real-world software problems.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Python, Django, Django REST Framework

Databases & Storage: PostgreSQL, MySQL, MongoDB

Developer Tools: Git, GitHub, VS Code, Postman, Vercel, Render

Core Computer Science: Data Structures & Algorithms, C, C++

Architecture & Concepts: REST APIs, JWT Authentication, Responsive Design, CRUD Operations

FEATURED PROJECTS

1. Bazar Dor – Market Price Tracking Platform

[GitHub Repository]

Tech Stack: JavaScript, HTML5, CSS3/Tailwind CSS, REST API Integration

- Architected a localized Bangla-language web app providing real-time commodity market prices across diverse categories.
- Engineered category filtering and dynamic pricing visualization to allow consumers to track price changes effectively.
- Integrated structured API endpoints for seamless fetching and client-side rendering of market dataset updates.

ATS Keywords: Dynamic UI, REST API Integration, Category Filtering, Bangla Localization, Responsive Layout

2. FitLog – Workout & Fitness Tracker

[GitHub Repository]

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a full-stack fitness tracking dashboard allowing users to log daily exercise routines and monitor workout progress.
- Implemented CRUD API routes in Express.js coupled with MongoDB schemas for storing structured workout logs.
- Designed a clean, intuitive, mobile-responsive user interface using React and Tailwind CSS for daily activity entry.

ATS Keywords: Full-Stack MERN, Full CRUD Operations, State Management, Activity Logging, Mobile-Responsive

3. Dev Stack – Developer Collaboration & Resource Portal

[GitHub Repository]

Tech Stack: React.js, Next.js, Django / Node.js API, PostgreSQL / MongoDB

- Built a technical community portal for developers to share tech stack recommendations, code snippets, and tools.
- Configured secure user authentication and dynamic content rendering to deliver personalized dashboard views.
- Optimized frontend components for high performance, server-side rendering, and responsive device accessibility.

ATS Keywords: Server-Side Rendering (SSR), Developer Portal, Authentication, Interactive UI, REST API

4. Manobota Blood Bank – Blood Donation & Management System

[GitHub Repository]

Tech Stack: Python, Django REST Framework, React.js / HTML, PostgreSQL / MySQL

- Engineered a centralized donor registration and search platform to connect voluntary blood donors with urgent requests.
- Developed filtered query REST API endpoints enabling instant searching by blood group, district, and donor availability status.
- Implemented role-based access control and donor profile management with secure authentication protocols.

ATS Keywords: Django REST Framework, Query Filtering, Database Indexing, Role-Based Access, HealthTech

5. E-Commerce Cake API – E-Commerce Backend Service

[GitHub Repository]

Tech Stack: Node.js / Python Django, Express.js / DRF, Database, JWT Authentication

- Designed a RESTful backend API supporting product catalog management, category filtering, and shopping cart logic.
- Implemented order processing workflow including user shipping address management and Cash on Delivery (COD) verification.
- Secured client endpoints using Token-based authentication (JWT) for user login, signup, and protected checkout operations.

ATS Keywords: RESTful API Design, Token Authentication (JWT), E-Commerce Cart Logic, Order Workflow
